Board of Supervisors Approves Date Street ADA Improvements

On Tuesday, the San Bernardino County Board of Supervisors approved improvements for Date Street in the Del Rosa area by installing ADA ramps at various locations on existing sidewalks. The Americans with Disabilities Act (ADA) provides civil rights protection for individuals with disabilities.

Since 1992, the Department of Public Works has been identifying and improving intersections and locations within the County network of maintained roads that do not meet current ADA requirements by field assessment and confirming improvement priorities established by the Act itself.

“With these proposed project improvements, the County reaffirms its commitment to the development and improvement of roads, curbs, sidewalks and ramps which require modification to provide access to all of its residents,” said Third District Supervisor Dennis Hansberger.

The contract was awarded to Grand Pacific Contractors, Inc., the lowest bidder of thirteen bids. Construction should commence by the end of April and be completed by mid June 2008. The project will be financed by AB2928 funds.
